Projected Number of Installed PCs in 1,000s						

The banner points across the top of the table refer to the market segments that discussed in the table

- Universe - all US PCs, whether owned by home/family, self-employer, or workplace employer
- Total Workplace PCs – PCs owned by an employer that are the primary PC being used by a household adult.
- Work PCs Located at Workplace – Employed-provided PCs located at the workplace, although may also be located in other locations, such as a notebook computer used on a plane, train, or automobile.
- Work PCs at Home or Elsewhere – Employer-provided PCs located anywhere else beside the workplace, such as in a home or on a plane, train, automobile or hotel.
